

Joeri DE RUYTTER

R&T Business Development and
Partnerships
Honeywell Ambassador

Joeri works for Honeywell Aerospace in the Advanced Technology group in Europe. In his role he works with the European Commission, its Joint Undertakings, and the governments of some European Member States, in order to build and support innovative European collaborative research projects. Together with other European aerospace stakeholders he is involved in different specific European and National working groups, such as ACARE, to set and drive ambitious research and innovation goals.

Joeri can rely on more than 20 years of business development work in the fields of Avionics, Air Traffic Management, and Airport systems. Before joining Honeywell, he worked for other aerospace companies, including HITT, Siemens Airports, Saab, Frequentis, and Luciad. He also ran his own consulting company AviLution, providing pilot ground training and airport consultancy.

Since 2005 he is also supporting the works of the European Commission through the role of Independent Expert / Evaluator. He is Member of the Royal Aeronautical Society and Chairman of its Brussels Branch.

Joeri studied at the University of Gent (Belgium) and the Technical University of Delft (the Netherlands) and obtained two Masters Degrees (one in Avionics and one in Electronics). He holds an EASA and FAA pilot license (PPL SEP(L)).

About Honeywell

Honeywell is a Fortune 100 company with \$40.5B in sales in 2017, Honeywell creates solutions that improve quality of life for people around the globe — generating clean, healthy energy, and using it more efficiently; increasing our safety and security; enabling people to connect, communicate, and collaborate; and equipping our customers to be even more productive. Our Great Positions in Good Industries have been a huge driver of our portfolio development and organic growth across industries, including homes and building, aviation, defense and space, oil and gas, industrial, chemicals and vehicles.
