

Peter Coen Bio

Peter Coen is the manager for the Commercial Supersonic Technology Project in NASA's Aeronautics Research Mission. In this role he leads a team from four of NASA's Research Centers in the development of tools and technologies for a new generation of quiet and efficient supersonic civil transport aircraft.

Peter has worked at NASA for 35 years. During his career he has studied technology integration in practical designs for many different types of aircraft and has made technical and management contributions to all of NASA's supersonics related programs for over 25 years. As Project Manager, he has led these efforts for 12 years.

Peter is a licensed private pilot who has amassed nearly 30 seconds of supersonic flight time.
